Address
Hyderabad, India.

Skills

Programming Languages

- Python
- Javascript
- HTML
- CSS
- C Language

Web Development

- Django
- Flask
- FastAPI
- React
- Docker

API Development

- REST API
- GraphQL
- API Documentation

Database Management

- Postgresql
- MongoDB
- SQL

Education

IIT Madras
BS, Data Science
2022 - present

BIT Mesra
BE, Chemical Plastics & Polymer Engineering
2014-2018

Sri Chaitanya Junior College, Raman Bhavan - I, Gudavalli.
Maths, Physics, Chemistry
2011-2013

About Me

I am a dedicated software developer with 3 years of experience in the software industry, focusing on designing, building, and maintaining scalable systems and data-driven applications. I am proficient in multiple mainstream programming languages, including Python and javascript for web development, with a strong foundation in object-oriented programming and best practices. With experience in working with both SQL and NoSQL databases, cloud platforms, and distributed systems, I thrive in fast-paced, collaborative environments, including start-ups and new business lines. I am passionate about solving complex problems and delivering high-quality solutions that meet business and client needs.

Experience

Backend Developer
Mantra Inc Jun 2023 - Present
Tokyo, Japan

- Develop, and maintain GraphQL APIs using graphene-python.
- Collaborate with iOS app developers to provide GraphQL endpoints.
- Utilize PostgreSQL for database management
- Employ Docker for deployment and utilize AWS Aurora PostgreSQL for hosting the database
- Test-Driven Development (TDD) principles, writing comprehensive unit tests to ensure code reliability, robustness.
- Utilize Sentry Application monitoring to address performance bottlenecks and system issues.

- Python
- Django
- Test Driven Development (TDD)
- Postgres
- GraphQL
- GitHub

Software Developer
kairhos ventures LLP Nov 2022 - Feb 2023
Banglore, India

- Developed project performance tool, that tracks and shows metrics, display performance heat maps and alert risk factors right from the opportunity creation to delivery of the project.
- Built REST APIs with Python using Django Rest Framework - DRF.
- For effective testing, APIs are developed by following Test Driven Development - TDD principles.

- Python
- Javascript
- Django Rest Framework
- GitHub
- TDD
- Jira
- Postgres
- Pytest

Backend Developer
Filed.com Apr 2022 - Aug 2022 ~ 6 months
United States

- Developed Marketing Influencer software that helps businesses to grow in social media platforms.
- Implement Facebook Social Graph APIs, Platforms, Products to send and receive data that fits application needs.
- Build REST API Microservices with Python Flask from existing code base.

- Python
- Microservices
- Flask
- GitHub
- TDD
- SwaggerAPI
- MongoDB
- pytest

Software Development Engineer I
iB Hubs (startup) Aug 2020 - Jan 2022 ~ 1 year 6 months
Hyderabad, India

- In my role as Software Development Engineer I (SDE 1) in iB Hubs, I worked (on Backend) using Django Web Framework.
- Implemented Clean Architecture on a Django Restful API using django rest framework.
- Test Driven Development (TDD) with Python.

- Python
- Microservices
- Django
- GitHub
- TDD
- GraphAPI
- MongoDB
- pytest
- SwaggeAPI

Software Intern
Jun 2019 - May 2020 ~ 1 year
iB Hubs (startup)
Hyderabad India

In my internship under iB Hubs Talent Accelerator Program where i learned key skills like:

- C-Programming, Python, MySql
- Django Framework
- Clean Code, Clean Architecture, Auth 2.0, REST
- Open API Specifications, Testing
- HTML, CSS, Bootstrap

and core personality skills like Growth Mindset, integrity, sincerity, gratitude, Handling disappointments that strengthened me professionally.

Internship
May 2015 - Jun 2015 ~ 2 months
Cyber Research Labs And Security Solutions Pvt. Ltd. (startup)
India

Undergone trainings on C Language concepts

- Data structures and algorithms
- Python programming
